

WOMAN COULD NOT SIT UP

Now Does Her Own Work.
Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also.
"I gave it to my daughter when she was thirteen years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."—Mrs. REBA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Better Sight—Less Annoyance

Toric Lenses give a larger field of clear vision, and their curved shape makes them appear very much neater than flat lenses. Your eyes will not touch them, nor will you find any rear reflections to confuse and annoy. Let us explain their many advantages to you.

NIPPON HOST TO FULLY 15,000 PEOPLE AT FETE

Celebration of 5000th Issue of Japanese Daily Furnishes Unique Entertainment

All yesterday afternoon a steady stream of people poured up Nuuanu street towards the big festival celebrating the 5000th issue of the Nippon Jiji, the local Japanese afternoon daily newspaper. The festival took place in the grounds of the Tokiwa tea house and spacious as these are, the crowd soon filled them from side to side. There was just enough room for movement, and there were plenty of objects to keep the curious walking all afternoon.

The schedule called for the first speech at 1:30, but the guests were so busy crowding about the side shows that it was not until 2 that a sufficient number gathered in front of the platform to induce Dr. T. Katsunuma, the grand official of the day, to commence the exercises.

The speeches were entertaining and all complimentary to the Nippon Jiji, which has expanded from a circulation of 300 twenty years ago to 5000 today. In response to these congratulatory speeches, Y. Soga, the editor of the paper, made the last talk of the afternoon.

But the speeches were a minor part of the entertainment. Who could listen to a speech after seeing the gallery of famous mementoes which decorated a long table in the main house? There lay a ragged, blackened broom which must have once been the possession of Hooligan's wife, yet a large sign informed the spectator that this was the broom with which a certain famous hero of Japan had swept out his cave when he was once in hiding from oppressors. All afternoon men and women thronged about this table.

But after the museum, after the speeches, when the second part of the program began with the famous cherry dance of the Geisha girls, then the crowd began to truly enthusiastic. A comedy called "Tsurigane," brought roars of laughter from the crowd. Then followed a fantastic Japanese war dance, a wild comedy termed "Imagination," another Geisha dance, a strange sword dance, and all the while the buzz and clatter of the crowd humming away in unintelligible Nipponese, and overhead lanterns yellow, red and white that swung and danced along the strings, and an air loaded with the thousand strange odors, and last of all and most beautiful of all the costumes of the little Japanese children, trail gay colored silks that swayed behind them as they ran like great butterflies. And here they would pause round-eyed to watch two armored warriors smiling each other mightily with enormous bamboo swords. And there were the great wrestlers upon whom the crowd poured its undivided attention while hero after hero was overthrown struggling frantically, until at last the hero of heroes, the victor of victors, the king of the day, stood forth as conqueror and was greeted with such a banzai as must still be ringing in his heart. It seemed like a great fair given long ago in some far away place where the east and the west meet and mingle.

It was the greatest garden fete that ever delighted Honolulu, the weirdest and the most beautiful, and best of all there were no fewer than fifteen thousand to witness it.

DIABETES

We announce this new FACT IN PHYSICS—Influence the renal tract with an agent that opposes Renal and Hepatic degeneration and urinalysis will, in many cases, within twenty days begin to show diminishing sugar in Diabetes in people of 50 and over.

There having been no agent on prescription counters to reduce sugar in Diabetes (except opium which is not a specific—see Van Noorden on Diabetes) the importance of an anti-glycosuric is immediately manifest. That sugar can be reduced and that many of those succumbing to Diabetes can have lives prolonged to other terminations has been established by urinalyses and confirmed by disappearing symptoms in many cases.

The presence of sugar being a PHYSICAL FACT, and its disappearance a FACT IN PHYSICS there is no uncertainty as to the results that have been obtained.

The agent to reduce sugar (Fulton's Diabetic Compound) can be had at Honolulu Drug Co. Ask for pamphlet. Current bulletin of recoveries and rationale mailed on application. John J. Fulton Co., San Francisco, Cal.—adv.

PLAN TO BUILD PLANT TO GET OIL FROM KUKUI NUTS

To undertake the manufacture of oil from Hawaiian kukui nuts D. S. Pahu and William A. Gill are organizing a company in Honolulu. The company is to be capitalized at \$25,000, a \$15,000 factory being part of the equipment. An estimate of the oil available in the islands is placed by Director Wilcox of the Hawaiian Agricultural Experiment Station, at 2,375,000 gallons annually. It is estimated that an average price of 50 cents a gallon can be secured for the oil. Many attempts to manufacture kukui oil have already been made here, but not on so large a scale as that to be undertaken by Pahu and Gill.

WANT \$300,000 TO HELP GUARD AGAINST FLOODS

Subscriptions Asked for Fund to Be Used to Build Walls in South of China

In order to build walls against the flood waters in South China, which have caused so much damage during the last few months, the people of Hongkong have asked for the sum of \$300,000, according to a recent copy of The China Press.

"A. E. Wood, acting secretary for Chinese Affairs," says the paper, "reports that he has spent 10 days up the West river and its tributaries investigating the conditions in the Koyul, Koming and Hokshan districts. He says that the outstanding features are the distress, the breaches in the embankments and the ruined houses."

According to the statements of Mr. Wood the Tungwa committee, which organization was the first to apply to Honolulu for help, has made provisional plans to help with \$100,000 of the sum needed to place sufficient barricades against future high water.

Mr. Wood says that in a few places the crops were actually harvested, but that the percentage of lost crops was very large. Most of the crops that survived were up the North river.

President Yuan Shih-Kai has held a conference with the ministers of state concerning the floods in Kwangtung, Hunan and Kwangsi and has arranged plans to prevent loss of property in the future. It is understood that special officials will be appointed to inspect the waterways in the various provinces.

Chu Gem, one of the Honolulu merchants who has taken such an active part in the sending of subscriptions from here, says that China's work in the flood districts should go as much to the building of barricades as to the rebuilding of destroyed houses and other property.

MELJIS HAMMER OUT VICTORY IN EXCITING GAME

The Meljis evened up matters Sunday afternoon at Athletic park when they played one of the best games since their arrival, and took the Portuguese into camp to the tune of 5 to 3. The game from the winners' standpoint was well played, and Osa-wa, the visiting pitcher, held the Portuguese sluggers to six hits. One noticeable feature was the fact that the team rushed through the game in a hurry, taking just a little over an hour and a half to stage the nine-inning battle.

The Portuguese started things going in the first inning by scoring one run, which was evened up when the Meljis tallied on errors in the second. The visitors tallied two more in the fourth on one hit and two errors, and from that time held the lead throughout. The locals, despite their loose playing, contributed three fast double plays to the score. The features of the game were Nakajima's hitting and the home run by Simas.

Hits and runs by innings:
Portuguese ... 1 0 0 1 0 1 0 0—6
Baserits ... 1 1 1 0 1 1 1 0—6
Meljis ... 0 1 0 2 0 1 0 1—5
Baserits ... 0 0 1 1 1 2 0 1—6
Baserits—For Meljis, Osa-wa and Ebizuka. For Portuguese, Medeiros and Simas.
Summary: Home run, Simas; Sacrifice hits, A. Joseph, Fujie, Ebizuka, Osa-wa. Double plays, Joseph, Ebizuka to Flizer (2). Nakajima to Fujie to Ohara, Joseph to Flizer. Bases on balls, off Osa-wa 4, off Medeiros 2. Struck out, by Osa-wa 4, by Medeiros 4. Passed ball, Ebizuka. Umpires, Olmos, Fernandez and Nakajima. Time of game, one hour and 38 minutes.

FACULTY DRIFTS BACK TO PUNAHOU READY FOR WORK

At Punahou the week before the opening of school, which this year comes on Monday, September 13, is one of the busiest weeks in the year. At the school offices someone will be in attendance every morning this week to meet parents at Pauahi Hall either Mr. Griffiths or Mr. Chase and at Charles R. Bishop Hall either Mr. Fitts or Miss Winne. Parents also can meet the principals at other times by appointment. The week of preliminary registration has been found to be exceedingly valuable in assisting students in planning their courses and in straightening out their difficulties for the school year. Entrance examinations will be held Friday and Saturday, September 10 and 11.

A number of teachers have already arrived and are living in the dormitories. Among these are Mrs. Maury Taylor, matron of Castle Hall, Miss Florence N. Carter, who has been away on a year's leave of absence and who returns to take up her position in the preparatory school, Miss Zell M. Breckenridge, Miss Mahel M. Hawthorne, Frank R. Midgiff and J. C.

OUR 5c SALE

To be run September 9th, 10th and 11th

Will be a revolution in Honolulu Drug Store Merchandising

These sales were originated by the REXALL DRUG STORES and are featured as 1c sales, except in Hawaii and Alaska.

Here's the way it's done

A number of items are selected to be sold at 5c each; you pay regular price for one and get a second similar article for 5c.

We will place 200 articles, selling regularly from 10c to \$5.00, on sale.

10c	Articles will sell 2 for	15c

French.
Stanley Livingston, who comes to occupy the position of director of the boarding department, a new position this year created by the trustees, arrived from Maui Saturday on the Maui Koa. He, with Mrs. Livingston and their children, has already taken residence at Punahou. He was formerly a teacher at Kamehameha and popular both at the school and in town. He enters this important position at Punahou well qualified to make a success of it.

BRONCHIAL COUGHS

When the bronchial tubes are affected with that weakening, tickling cough, they need immediate and sensible treatment. The breath seems shorter because of mucous obstructions; usually fever is present and your head aches with every cough. Your chest aches and the inflammation often spreads to the lungs.

The food- tonic that has proven its worth for forty years—is Scott's Emulsion. It drives out the cold which is the root of the trouble, and checks the cough by aiding the healing process of the enfeebled membranes. If you are troubled with bronchitis or know an afflicted friend, always remember that Scott's Emulsion builds strength while relieving the trouble.

SCOTT & BOWNE, BOSTON, U.S.A.
